EDUCATION

BE – Information Science & Engineering
Atria Institute of Technology, Bengaluru
3rd Year · Grad: June 2028

8.3 CGPA

Pre-University (2nd PU) – KSEEB
87%

Class 10 – ICSE Board
89.8%

TECHNICAL SKILLS

LANGUAGES
Python | Java | C | C++

TOOLS
GitHub | VS Code

INTERESTS
AI / ML | Cybersecurity | Photography

CORE STRENGTHS

- **Full-Stack Web Development**
- **AI/ML & Computer Vision**
- **Problem-Solving & Analytical Thinking**
- **Team Collaboration & Project Leadership**

LANGUAGES SPOKEN

English | Hindi | Kannada | Marathi

> *Third-year Information Science and Engineering student at Atria Institute of Technology, Bengaluru, interested in AI/ML and Cybersecurity. Passionate about building web applications, exploring machine learning and computer vision, and developing practical solutions through projects and hackathons, with a personal interest in photography.*

PROJECTS

1. DinePulse — AI-Powered Dining Application

Tech Stack: Next.js, React, TypeScript, Supabase, PostgreSQL, Gemini AI

- Developed an AI-enhanced dining web application using modern frontend technologies.
- Integrated Gemini AI and used Supabase/PostgreSQL for backend services and database management.

GitHub: github.com/ninjaaaa18/DinePulse
Live Demo: dinepulse-sigma.vercel.app

2. AI-Based Violence Detection

Tech Stack: Python, TensorFlow, Keras, MobileNetV2, Computer Vision

- Developed a computer vision project to detect violent activities in videos and images using deep learning.
- Explored TensorFlow/Keras and the MobileNetV2 architecture for automated violence detection.

GitHub: github.com/ninjaaaa18/voilence_detection

HACKATHONS & INNOVATION

1. Smart India Hackathon (SIH) — Phase 2 Shortlisted

Project: Kheti Sethu
Domain: Agriculture Technology

- Worked on a solution to strengthen market linkages and price discovery for farmers.
- Focused on using digital tools and market insights to improve farmer–buyer connections.

2. Cypher Hackathon — SWIFTORA

Role: Project Lead
Tech Stack: React, TypeScript, Vite

- Led development of the customer-facing application and interactive Magic Mirror experience.
- Collaborated with a four-member team working across the customer app, backend, admin dashboard and rider application.
